Persona 1	‘Australian CME Leader Melina’
Role	CEO of BCCM
Context of their work/role	The CEO of BCCM, who is engaged in value-creating opportunities for its Australian member organisations and public advocacy on behalf of Australian CMEs AND The Australian representative in the ICA who is engaged in knowledge sharing, innovation and representation of the Australian CMEs sector in the ICA.
Key activities/ decisionmaking needs and interests	Interested in having a visual data exploration environment of the ICA World Cooperative Monitor. The visual data exploration environment will enable finding about international ICA members and their activities that are relevant for BCCM’s Australian initiatives and future strategy.
DV Questions	Question 1: How has Australia’s representation in ICA performed over the past 5 years compared with other economies? Question 2: Which sectors show the largest contrast between their international prominence and their domestic footprint in Australia? Question 3: Which countries lead in (the selected sectors), what policy/regulatory/capital management approaches support their success, and how could Australia adapt these approaches / form partnerships to develop these sectors?

Persona 2	‘CME Data Analyst Karl’
Role	BCCM Data analyst
Context of their work/role	- In charge of the annual BCCM NME Report - Engaged in the full life cycle of NME reporting, from data harvesting, cleansing and production of the annual NME report.
Key activities/ decisionmaking needs and interests	-Interested in having a visual data exploration environment of the annual NME reports, serving different stakeholders interested in the Australian CME sector.
DV Questions	Question 1: How well are CMEs performing and sustaining value for their members? (internal benefits) Question 2: What value do CMEs bring to everyday life in Australian communities? (external benefits) Question 3: What do these contributions mean for Australia, and how can these findings inform policymakers’ initiatives to support the further development of the CME sector? (or How can findings of CMEs’ performance and contributions inform government initiatives to support their further development?)

Persona 3	Ly Huynh My - Healthcare SME Leader Exploring Co-operative Membership
Role	Leader of an independent healthcare SME considering membership in a co-operative of healthcare providers.
Context of their work/role	Ly Huynh My's SME already has healthcare professionals, equipment and an established client base. She is exploring whether BCCM membership could provide additional support, knowledge and networking opportunities relevant to her organisation's goals. She is uncertain about eligibility, available benefits and membership commitments.
Key activities/ decisionmaking needs and interests	Ly Huynh My needs to investigate membership eligibility, compare BCCM's documented offerings with the support her SME already accesses, and assess potential benefits against costs and participation commitments. She seeks evidence to decide whether pursuing membership would suit her organisation.
DV Questions	Question 1: How well do BCCM's membership options and eligibility requirements align with the SME's current business structure and goals? Question 2: What additional value could BCCM membership offer the SME compared with the support and networks it already accesses? Question 3: How do the potential benefits of BCCM membership compare with its costs and participation commitments for the SME?

Note: These ideas are preliminary and may be refined as we explore the data and conduct further analysis.
